**Health Care Experience:**

7/2010 - present      Registered Nurse  
MedStar Good Samaritan Hospital  
The Center for Wound Healing, Hyperbaric Medicine, and Limb Salvage  
Baltimore, Maryland

Performs duties of a registered nurse in a high-volume outpatient clinic setting specializing in wound care.

- Completes wound assessments, documentation, and dressing application.
- Provides patient education, including wound etiology, nutrition, offloading, wound cleansing and wound dressing instructions.

- Collaborates with physicians to optimize patient plan of care.
- Extensive knowledge of wound care dressings and techniques, including wound vacs, compression wraps, and total contact casts.
- Serves as preceptor to newly-hired registered nurses.
- Attends staff meetings and panel meetings regularly.
- Performs monthly chart audits.
- Manages inventory, including supply purchasing.
- Attains Role Model designation (highest designation) on yearly performance reviews.

7/2007 - 7/2010

Registered Nurse  
 Johns Hopkins Bayview Medical Center  
 Johns Hopkins Regional Burn Center  
 Burn/Wound Unit  
 Baltimore, Maryland

Performed duties of a registered nurse on a 10-bed inpatient unit caring for burn victims and wound patients ages 15 and older.

- Completed hospital-wide new graduate orientation and unit-based new graduate orientation, learning nursing care in the burn specialty.
- Performed on-going nursing assessments and timely documentation.
- Prioritized, individualized, and implemented plans of care and evaluated patient outcomes.
- Collaborated with a multidisciplinary team that included medical residents, fellows, and attending physicians, physical and occupational therapists, and case managers.
- Provided on-going patient education from admission to discharge.
- Performed care of post-operative patients, including those that received split-thickness skin grafts, allograft placement, wound debridements, and muscle flaps.
- Performed burn dressing changes using sterile technique.
- Delegated responsibilities to nurse technicians based on their roles.
- Attended staff meetings regularly.
- Cross-trained to provide care for IMC-status patients in Burn ICU.
- Member of the hospital-wide Wound/Skin Resource Team and Co-chair of the Burn/Wound Unit Shared Governance Committee from 2009-2010.

5/2006 - 5/2007      Student Nurse Technician  
Nursing Veterans Affairs Learning Opportunities  
Residency (VALOR) Program  
James H. Quillen VA Medical Center  
Mountain Home, Tennessee

Working under the direct supervision of a BSN-prepared registered nurse preceptor on a medical telemetry unit, participated in direct patient care performing duties of a nursing assistant as well as learning the role of a registered nurse by:

- Completing nursing assessments and documentation in the patient electronic record
- Completing admissions and discharges
- Providing patient education
- Communicating with physicians
- Giving and receiving report at shift change.
- 

Completed 20-hour basic dysrhythmia course and monitored cardiac rhythms of patients. Completed change project for unit by updating Kardex forms.
