

Grant opportunities and Grantsmanship tips

Join us for a **90-minute workshop**

Susanna Greer, PhD and Nicole Lopanik, PhD

American Cancer Society

The American Cancer Society awards research grants and fellowships to promising scientists early in their careers who have unique hypotheses for cancer prevention and study, fostering the next generation of cancer research and creating a strong foundation of preliminary evidence to make scientific advancements.

Workshop objectives:

- Provide overview of American Cancer Society funded grants and research
- Provide “Insider Tips” for a successful application process
- Understand how grants will be evaluated
- Understand success rates in future funding
- Understand online resources
- Opportunity to address participants questions

Researchers, Clinicians, and Administrators from all disciplines and at all levels are welcome

Wednesday, August 11, 2021

2-3:30PM

Together we're

Attacking Cancer

From every angle

Dr. Susanna Greer Senior Director of Biochemistry and Immunology of Cancer Research In this capacity, Dr. Greer speaks to donors, volunteers, and researchers on behalf of the ACS; directs scientific review and strategic planning; oversees outreach activities of ACS grantees; and collaborates with the American Cancer Society Cancer Action Network (ACS CAN), to enhance scientific advocacy for cancer research.

Dr. Nicole Lopanik recently joined the American Cancer Society (ACS) as a Program Manager for Extramural Research, Nicole Lopanik is responsible for organizing the Peer Review process for Extramural Research grant applications in the Biochemistry and Immunology of Cancer Program. She also manages a large portfolio of grants, and constituent relationships with grantees, scientific volunteers, and stakeholders. She works with the dedicated staff in the Extramural Discovery Sciences department to help researchers realize their innovative ideas.
