Promoting HPV Vaccination During the Era of COVID-19

The COVID-19 pandemic caused unprecedented disruptions in health care, including HPV vaccination. With adolescents also eligible for COVID-19 vaccines, how do health care providers continue to promote HPV vaccination while navigating the new waters of COVID-19 vaccines?

Join us for an overview and discussion with local colleagues highlighting the current work being done in the Greater Philadelphia region to elevate HPV vaccinations. Featuring local speakers:

Dr. Nicole Parkerson, MD, FAAP

Regional Medical Director, Mid-Atlantic, Merck Vaccines

Dr. Jonathan Miller, MD, FAAP

Medical Director of Value-Based Care and Chief of Primary Care Pediatrics
Nemours Children's Health, DE Valley

Carla Gomora

Clinical Supervisor, JDC Pediatrics-Camp Hill, PA
