Dear MDAAP Colleagues,

As the holiday season approaches, I hope this writing finds you and your family doing well. The MDAAP is grateful for the work and sacrifices you have all made to keep children and families safe and well during the pandemic.

As Maryland pediatricians and pediatric healthcare providers, we know that the pandemic has taken an unprecedented toll on our children and families. Even the youngest of children have schooled via distance learning and missed out on enriching and nourishing social interactions with friends and teachers. Families have been craving time with their children that does not involve screens.

During these times, reading with children becomes even more important developmentally, emotionally and socially. The MDAAP Foundation has long supported the Read Out and Read Program and providing mini-grants to pediatric practices to pay for books for patients. As so many families are suffering through difficult financial situations, our need to provide books for families is far greater.

The MDAAP Foundation is able to provide mini-grants to pediatric practices due to the generosity of our MDAAP Chapter members and other donors. **We ask that you consider making a charitable gift so that Maryland children can continue to receive books.** As you are making this gift to the MDAAP Foundation, a 501c3 organization, your gift may be tax deductible to the fullest extent of the law. Please consult your tax advisor for more information. For your convenience, we are attaching a form for you to fill out and send with your donation.

With gratitude for your support and the work you do each day for children and families, I wish you a very blessed holiday and healthy new year.

Regards,
