

GUIDELINES FOR OBTAINING CME/ MOC2 AND MOC 4 CREDITS

Participants are eligible to receive 12 CME/ MOC 2 credits and 25 MOC 4 credits.

Ken Tellerman M.D. and Anna Maria Wilms Floet M.D. who are the course directors and presenters will perform the verification process to determine eligibility of participants to receive CME/ MOC 2 credits and MOC 4 credits and resolve any disputes.

CME and MOC 2 CREDITS:

- Participants will attend six one-hour Quality Improvement sessions over the course of six months. They will be required to complete a CME questionnaire after each session and submit it to our team to document attendance and participation. The course directors will verify attendance at the QI sessions. The CME questionnaire will be sent out by email after each QI session. The program has also been approved for PNP's to receive CME credits through NAPNAP
- Participants will be assigned one- hour readings between teleconferences and will be required to complete 12 CME questions based on the readings at the end of the 6- month period achieving a minimum score of 70 %. Participants will be allowed to repeat responding to the questions until they attain a 70% score or better. Feedback will be provided to participants by offering narratives that explain the rationale for the correct responses. Completion of the 12 questions is to be submitted at the end of the 6- month QI program

MOC 4 CREDITS:

- Participants must input data in AAP QIDA for 10 telehealth developmental coaching sessions. Participants must also *directly* attend a minimum of 5 QI sessions. QI sessions will be video recorded so that participants can view missed sessions
